I am a diligent, enthusiastic, creative, and skilled Artificial Intelligence (AI) software engineer with 4+ years of experience building commercial applications. I have worked on innovative and cutting-edge business solutions that span different fields while ensuring 98% on-time project completion. My extensive testing skills ensure I build software that is less prone to bugs and downtime, and my excellent debugging skills ensure I can recover the system from downtime in record time. I am a fast learner with a strong academic background and a challenge-orientated problem solver. I am also a resourceful team player, a natural leader, and a great communicator.

CORE SKILLS

- Artificial Intelligence
- Python
- C #
- Aws
- .Net
- MySQL

- Team Collaboration
- Time Management
- Excellent Communication
- Knowledge Sharing
- Critical Thinking
- Creativity

PROFESSIONAL EXPERIENCE

NORTHUMBRIA UNIVERSITY – LONDON ENGLAND (September 2024 – January 2025)

ARTIFICIAL INTELLIGENCE

- *Natural Language Processing.*

- *Generative AI.*

- *Convolutional Neural Network.*

- *Generative Adversarial Network.*

- *Machine Learning.*

- *Deep Learning.*

- *Robotics.*

- *Python programming language focused on analysis.*

- *AI programs involving text mining (sentimental analysis), doing sentiment analysis on data, using different approach methods from rule-based traditional to transformer-based, and the current state of art, thereby preparing it for further analysis as algorithmic learning and machine learning.*

- ❖ *Facial recognition using CNN.*
- ❖ *Chatbot uses NLP Python.*

Software Developer / Backend Team Lead (April 2022 – July 2024)
Dev Carrier Africa – **Lagos**

- ❖ *Technical leadership by Providing guidance and leadership to the backend development team, including code reviews, architectural decisions, and ensuring adherence to best practices and coding standards.*
- ❖ *Project management by overseeing backend development projects, including planning, estimation, and scheduling of tasks. Collaborating with other teams, such as front-end developers, QA engineers, and product managers, to ensure successful project delivery.*
- ❖ *Team coordination by facilitating communication and collaboration within the backend team, as well as with other teams. Conducting regular team meetings, setting goals, and providing support and mentorship to team members.*
- ❖ *Continuous Improvement by Identifying areas for improvement in processes, tools, and technologies used by the backend team. Implementing changes to increase efficiency, productivity, and code quality.*

SEVEN UP BOTTLING COMPANY LAGOS (January 2020 – February 2022)

Software Developer

- ❖ *Given specific project in the building of back-office project.*
- ❖ *This project was based on the fact to get all transactions, failed transactions, and all successful transactions.*
- ❖ *Implemented roles such as Admin Officer, National and Regional Admin Officer, and other roles such as Payment Officer, National, and Regional too, all the roles based on the user region.*
- ❖ *I also collaborated with senior engineers to bring this project to reality.*

Conclase Academy (August 2019 – January 2020)
Software Developer

- ❖ *Developed and implemented backend services using C Sharp (#) and Dot.Net to build a student database management app.*
- ❖ *I built a database with MySQL having complete information about the student database and connected it to the Asp.Net Server.*
- ❖ *I integrated a standard API on the student database showing the student database record.*

1st KINGS INTERNATIONAL (AUGUST 2018 – DECEMBER 2019)

Software Developer

- ❖ ControlledtheAffairsofTechnologyTrainingofstaffstonewtechnologies.
- ❖ Training students in basic computer programming languages as a freelance part of the projects are simple calculators using Python programming using Python.
